

APPENDIX 7.8

Existing Personal Property

In preparation of this Prospectus Reclamation asked all of the existing concessionaires, in writing, if they wished to provide a list of personal property used in their operation that they would want to sell to a new operator if they are no longer the concessionaire in the next contract term.

Only Lake Berryessa Marina responded positively and Reclamation will retain their information for eventual provision to a successful bidder at the Lake Berryessa Marina location if it is not the current concessionaire. Some other concessionaires indicated no desire to sell personal property to a new and different concessionaire and some did not respond to the inquiry so it is unknown as to their eventual interests in this matter.

This matter is only offered as a convenience to both the current and potential new concessionaires to augment any eventual transfer to a different concessionaire. This issue should have no impact on the bids to this prospectus from either current or potential new concessionaires.

The existing concessionaire owns personal property used in the business. A new concessionaire is not required to purchase this personal property but may wish to do so if it can reach agreement with the existing concessionaire on terms that are mutually acceptable. Reclamation will not be involved in any such transaction. **The property purchased and the transaction prices will be entirely up to the buyer and seller. The fact that the final purchase price may be greater than estimated by an offeror will not be grounds for adjustment of the terms of the concession contract or other financial relief to the new concessionaire.**
